

Participation in the program will allow the certificate holder to facilitate sessions working with individuals and teams based on Bridge Assessment® reports.

CERTIFICATION

(Level 2)

BRIDGE® MODEL

People have different styles, and this means that we receive communication differently. Adapting our communication to the style of the person we are talking to, and being aware of our own relational style helps us to avoid many conflicts and to understand each other better. Bridge® identifies 4 relational preference styles that are represented by the 4 elements of nature: earth, fire, air and water.

The model has been validated by the Department of Applied Statistics of the Autonomous University of Barcelona and has been used in more than 20 countries with more than 25,000 reports.

BRIDGE ASSESSMENT® REPORT

It is a simple, intuitive and universal online questionnaire that offers you a report with the percentage detail of your styles, and a detailed description of the value contribution of your style, as well as its ineffective use.

PREVIOUS REQUIREMENTS

Having completed the Accreditation (L1) before.

PROGRAM CONTENTS

- Facilitation of the Bridge® model for individual processes, groups and teams.
- Team typologies.
